## The Buffalo Collection

### Cottonwood Coffee Table

51" long, 25" deep, 19" high

Cottonwood is the quintessential tree of the American west. We hire a lumberman to hunt up and buy old stumps to dry and fashion these one of a kind natural tables. The distinctive grain and light color make this table simple and serene as well as durable; long-lasting and beautiful regardless of hard wear and tear in your home or office. A lower shelf adds to its stability and usefulness.
