The Buffalo Collection

Mission-Style Armchair with Cushions

36" wide, 36" deep, 36" tall

This is our newest chair, designed by Kevin Corn of L.A. It is a modern adaptation of an arts-and-crafts design. Simple cushions of buffalo leather are comfortable and reversible. The wooden arms hold a drink or let you write a note on their flat surfaces. The deep wooden seating deck and square feet make this chair thoroughly modern.
