

THE BUFFALO COLLECTION AT SCENIC MESA

Native American Kidney-Shaped Chair

28" WIDE, 23" DEEP, 34" TALL

Most modern, with a round base and a pillow-top, this little brown chair can take center stage in your minimalist contemporary setting. Yet it displays your love of the west with its Kravet reproduction Navajo rug fabric in brown, grey and rust from its Museum Collection. We made a trapazoid table in rust to display with this chair - ask about it and we'll send you a picture.
