The Buffalo Collection

North Fork Chair

33" wide, 40" deep, 39" tall

The comfortable buffalo leather North Fork Chair is trimmed in leather braid and stained hardwood frame. Manufactured by Hancock & Moore in Hickory NC using butter-soft naked buffalo leather from the American West, this is a whole new American-ethnic look for the 21st century. We're in a time of new beginnings, and this chair speaks volumes about the simple, straightforward basics of life.
